HF is getting E-Whored hard.
thread by spaark, meme'd by HackingDoge

Friends, we gotta talk about this. I find it ultra-ironic, that HF: land of the e-whores is getting blatantly ewhored by [BellsPlayground](#). She's (?) a new user who is selling lovely photographs of her (?) body with various verifications and stuff. If you're interested in her (?) sales thread you can find it [here](#). But this is no advertisement, as it has become clear to [duplex](#) and I that this exercise of her doing intentionally or not is catching our selfless E-Whore lords in the same net they put others in. You can spot the crafty buggers in her thread. "She's one of us" - they proclaim. But I believe, that this user is making a fool out of them. As she, (?) a woman, is taking claim to what these HF E-Whores have been taking advantage of for too long, royalty free woman nudes. She's (?) produced the perfect retard tax on this site that returns the cycle of E-Whores to the ladies favour.

So this is a Community Alert to you devilish losers out there pretending to be girls. Stay safe out there, those you imitate are smarter than you give them credit for.
(and you clowns are basically victim of ur own venom)

Some relevant (homemade) memes for your enjoyment:Spoiler [\(Click to View\)](#)

In all seriousness:Spoiler [\(Click to View\)](#)Bella seems chill and I hope she finds what she's looking for here. I in no way mean to sales trash, You've been more than polite and I hope you stick around. Your clients are the scum of the earth and take advantage of lonely people, this is me poking fun at them. As I said in your thread, your entrepreneurialism is unmatched.

Is scavenging the internet using someone elses body any better?

I was on an other forum and posted an thread for real verification girl pictures/written notes on chest

etc in their ewhore section. I was amazed about the millions of discord messages I received instantly.. all willing to pay BTC... Better traffic than elsewhere lol

its better but still retarded. would suggest people to go out and get a job instead of scavenging change. imagine telling your wife you paid for the wedding by flirting with old men, seeing countless dick pics, sexting etc.

hopefully a time comes where these people grow up and stop being lazy, be productive to society and do themselves better.

the same can be said about scamming /shrug

its actually very very easy to get a degree, get a job, earn a 100k a year in the US. the only thing that stops you is autism or being a lazy fuck.

you know the funniest thing is? people with /actual/ autism are earning that. so people who are ewhoring, what makes you such a lazy sub human where you cant work?

So you're alright with being dildo'd in all sorts of bodily holes as long as you can say it's someone else paying for it and therefore they're the dirty one? Whaaat is that logic?

I think both e-whores and e-girls who sell others/themselves to be the lowest of the low. I can't blame them though. They are getting paid by losers who can't get pussy and wanna feel special.

I'm glad I'm not apart of this stupid generation, all these young girls selling their bodies and lonely ass men paying for it. I remember being able to actually get laid and not some pics or private videos from some slut. Kuddos to actually using my dick.

Your post I was replying to stated that it's the client who is doing the "dirty" deed and therefore she is void of any criticism. As if the SUPPLIER isn't applicable for criticism just because a CLIENT is willing to pay.

So let me break this down because it obviously wooshed you hard: Water supplier = SUPPLIER, if they supplied a toxic product, yet the citizens (CLIENT) paid for it, your logic would dictate that it's the CLIENT that is at fault because as you stated: I've always thought if people are willing to pay, that's their problem. Yes, my point was flawed if generalised but I didn't mean for it to be a generalised statement. However, on the topic we are talking about. No harm comes to someone buying nudes - they get something they want, no harm done. So, what is the supplier doing wrong? It's their body and they have the freedom to use it as a service in this way.

Unless you believe it's exploitation which is your opinion and that's fair.

There are certainly moral questions about selling nudes but morality is up to the individual. If someone is comfortable with it then so be it. I don't see the harm in any of this.

MavenGradle - August 1, 2019, 5:09 pm

If you cannot see the legal repercussions for pretending to be someone else and effectively making money that way (in a fraudulent matter), there's some serious work that needs to be done in your legal department. It's all fun and games while you're making money off of it, but don't be fooled by anyone saying that e-whoring is okay or 'legal'. It's not, in most countries anyway.

On a different note, I find it surprising that people here find it exceptional that a woman is in fact selling naked pictures of herself. This has been going on since photography was invented and will continue to do so because sex pays. Simple as that. Women selling naked pictures here comes as no surprise to me. If the world wasn't just hackforums (which it isn't, trust me), you'd find plenty of sites where you could buy legitimate naked pictures of women who do make a decent and quite

honest living out of this.

I can't imagine that she's fake, no way.

I asked her for verification pics (unique ones) multiple times and i always got them pretty much instantly.

Also i was having a conversation one day that it still could be fake by paying someone else for her pics and then acting as if they are her and i instantly got this video without me asking for it.

For the lazy people here is the Lyrics:

Not sure if you are talking to me since you didn't quote me but i did host her thread for a few days when she wasn't a Leet yet.

She didn't send me nudes at first, i didn't ask for them either except some pictures which were public already, used them for thread graphics, i just wanted to help her out since i figured she was desperate for cash and i've learned that the traffic is a lot higher in the premium seller section.

After a while we continued talking, also at a point where she was making pictures for a new customer and i asked her to send me a clear nude aswell and she did, one that got reposted on

RedCupcake is female. Probably doesn't appreciate me pointing her out like this... but she's pretty chill about it.

We always used to joke about a photo she sent in Dawn and how she's got very feminine fingers for a dude. Top Mate!

Wolfpack was deleted and so were the posts. HF essentially refunds the bytes gained from posts and threads. Bit of a weird system... now's back to grinding for 0bal.

Bells is a real person you idiots, I was working with her before she came on here

kawaii - August 5, 2019, 5:44 pm

I think it's well established that Belle is a real person by this point and as others have said in the thread previously - there's nothing really wrong with what she's doing here. Sure you might find it morally questionable to sell pictures of your body for money but after all - her body, her property.

Belle's future is bright here, even a staff vouches for her.

But jokes aside, she indeed did a lot to prove herself, at least to me personally and i didn't even ask anymore later.

Eh, don't put words into my mouth please. I certainly don't 'vouch' for anyone unless I've done a contracted deal with them - and even so you shouldn't take my word for their trustworthiness just because I'm staff on a hacking forum. It means nothing.

The same sentiment as my post really. It's sad that people care so much.

Wafflemonger - August 5, 2019, 6:06 pm

It's been a couple days since I've seen a thread on the same level as this. Props to OP. Plus ... isn't it e-whore logic that the person gets what they pay for, so it isn't really harming anyone?

Honestly tho, I stay out of those sections for the most part so I had no idea who this person was until this thread was made LOL. Literally threads like this will always get the person more attention. Plus ... judging by what I can see, the person appears real. Although as others have said ... who really cares as long as no harm is being done to any party. AKA person wants nudes of said girl, person pays for nudes of said girl, person gets nudes of said girl. No harm :').

I haven't found an argument to suggest that E-Whoring isn't anything more than fraud.

Oh, by the definition of fraud, absolutely it is lol. I just personally see it as one of those victimless fraud schemes, where no one really ... gets hurt. Maybe the model if their pictures are stolen is the overall victim in that type of situation.

HF is getting E-Whored hard.

thread by spaark, meme'd by HackingDoge

Friends, we gotta talk about this. I find it ultra-ironic, that HF: land of the e-whores is getting blatantly ewhored by [BellsPlayground](#). She's (?) a new user who is selling lovely photographs of her (?) body with various verifications and stuff. If you're interested in her (?) sales thread you can find it

[here](#). But this is no advertisement, as it has become clear to [duplex](#) and I that this exercise of her doing intentionally or not is catching our selfless E-Whore lords in the same net they put others in. You can spot the crafty buggers in her thread. "She's one of us" - they proclaim. But I believe, that this user is making a fool out of them. As she, (?) a woman, is taking claim to what these HF E-Whores have been taking advantage of for too long, royalty free woman nudes. She's (?) produced the perfect retard tax on this site that returns the cycle of E-Whores to the ladies favour.

So this is a Community Alert to you devilish losers out there pretending to be girls. Stay safe out there, those you imitate are smarter than you give them credit for.
(and you clowns are basically victim of ur own venom)

Some relevant (homemade) memes for your enjoyment:Spoiler [\(Click to View\)](#)

In all seriousness:Spoiler [\(Click to View\)](#)Bella seems chill and I hope she finds what she's looking for here. I in no way mean to sales trash, You've been more than polite and I hope you stick around. Your clients are the scum of the earth and take advantage of lonely people, this is me poking fun at them. As I said in your thread, your entrepreneurialism is unmatched.Wait so I'm guessing just because she didn't give you free photos like that other dude, you're dissing her and sugar coating it to make it not seem so "rude".

you didn't need to make this thread niqqa, simple as that.

If anything she helps eWhores such as myself who sells pics/videos to horny dudes, not ewhores people on HF, because again the people she sells to are reselling to horny dudes on Snapchat or whatever to make money, not for personal use.

I legit had her make a video for one of my customers saying his name and dirty talking in a video, and thanks to her altogether I've made over \$400 in 2 days.

she also did verification photos that CAN NOT be found in ewhore packs all the time, especially when its something like middle finger on stomach, hand around neck, etc..

Sorry OP but you sound like a fucking idiot, yeah she's chill, but again why the fuck did you make this thread?

Explain and I will gladly snip this post, because right now you seem upset since you had to go out of your way even though it seems you have no life, to make a fancy thread on how she's ewhoring HF and basically talking down on her.

Stanley - December 23, 2019, 6:26 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I'm glad I'm not apart of this stupid generation, all these young girls selling their bodies and lonely ass men paying for it. I remember being able to actually get laid and not some pics or private videos from some slut. Kuddos to actually using my dick.

I got to many words to say about this but I'm just gonna leave this be it, Hoes gonna be hoes, and lonely ass men will always pay for their "service".

I agree with this. Society has pushed this acceptance on 'sex working' when in reality it's degrading both the female image and society's structure and stability. Ewhoring is a wonderful method of making money and I don't necessary have anything against ewhorers, but the females who willingly produce this content accelerate the decline.

On topic; It would be ironic if Bella was in fact a male. However, i do give props if someone was capable of baiting everyone like that. Ewhorers should be more cautious and do their due diligence from sources.
