Thread: [\[No ROOT\] Hack WiFi with Android](#)

Stone - August 1, 2019, 8:15 am

Note: This is not my method. Haven't seen this being shared on HF so I thought of doing it.

PLEASE DOWNLOAD AT YOUR OWN RISK.

Download:

Code <https://www118.zippyshare.com/v/CcfzzYh9/file.html/>
Just select the desired Network and let the app do the magic.

(It doesnt always work, there is a Probability Score next to it, if you found a network with a green Mark you should be alright!)

Mr. Robot - August 1, 2019, 2:28 pm

Lmao I wouldn't call this hacking but sure I guess.

W3 S33 4LL - August 1, 2019, 2:45 pm

All this for an award....

SIM-4086413 - August 3, 2019, 1:51 pm

Uhh alright, i was searching for something like this a while ago but never find anything good that didn't require root access, i'll give this a try soon thank you.

Bastille - August 3, 2019, 2:08 pm

Sounds quite easy to access a router ... Just read that's highly recommended to disable this protocol. Not sure if it will work nowadays, but I'll sure try it ?

Thanks for sharing !

lesstech - August 3, 2019, 2:11 pm

Why upload files that are going to be a risk for HF members? where did you obtain the file

Agreed. But it's not LQ shit :)

Jason Smith - August 5, 2019, 3:36 pm

Doesn't seem to work but still good idea

30ff - August 7, 2019, 11:13 am

Anyone tried this yet or ?

Nulla Misericordia - August 7, 2019, 3:11 pm

I knew there were script kiddies out there but App kiddies?? Ok lol.
