Thread: [Need sms flood capable of crashing phone](#)

Phone_connect - August 2, 2019, 9:53 am

Ive seen alot out there but i dont know if they will send enough and as fast. I am wanting to completely crash 2 peoples phones. And not as a joke. Ive got like \$5 ill pay once i know both phones are done for. Or if anyone can think of better ways to help me out ive got \$5 lets hear it.

Thanks again.

Lol, you cant actually kill a phone by sms spamming. Maybe like a low end one might have a couple problems but it will never be enough to actually make it die.

Ive read post of people saying its crashed peoples phones before. Granted if thats true idk. Figured if you sent a phone 10,000 sms messages every hour its bound to do something crazy. Either way im open to other ideas to get the job done. Thats just the first thing that came to mind.
