Enjoy everyone.

duplex - August 2, 2019, 2:21 pm

That's fucking sexy, will try it out now

SoulZeh - August 2, 2019, 2:25 pm

Offft, that's actually really pretty.

Banter. - August 2, 2019, 2:28 pm

now thats pretty cool, great job!

SIM-1729678 - August 2, 2019, 2:43 pm

I like it, fits my avatar.

EDIT:

Now that I run it on PC:

I am not a huge fan of the logo with the red and green, besides that, it looks nice.

I think the customisation options are important, I would love to see some exotic colours such as Yellow or even a pink theme, damn that would be kinda cool.

Top 3 for me

Pink

Yellow

Cyan blue

& a very very dark green option

flavoral - August 2, 2019, 2:49 pm

Theme feels a bit too much of red to the eyes. I will probably stick with the blue as it's much more relaxing.

Is there a possibility in the future of incorporating a Hex palette so we can choose from a good few

hundred colours?

Either way, it's cool that HF is getting new colours

Natas - August 2, 2019, 2:54 pm

Thanks omni I will give it a chance probley will switch back tho cause this blue is my favorite color, I do miss the old school purple tho I dont know why I miss it this looks way more professional probley was just use to it.

funtela - August 2, 2019, 2:54 pm

This one looks amazing! Only thing I'd recommend is to change the colors on the HF logo. Looks like a bad Christmas color mix lol.

That's not really an option. Firstly we alter the logo image based on the css choice. I also prefer to have only select choice for theme colors. It would take some effort to make the css user selectable. It's possible but not really worth it imho.

I think this is the last color choice we will offer for a while.

Pikachu - August 2, 2019, 2:59 pm

Nice, red would go nice with my username :D

lesstech - August 2, 2019, 3:02 pm

Nice move and many more to come.

The purple is just too kind to my eyes, I love it.

I'll always go back to purple tbh ?

Yeah the purple is a bit better on the eyes.

SIM-4086413 - August 2, 2019, 3:19 pm

I love it exept the logo, green and red dont fit very well at all.

If you have some time, google search: Far Cry 4 Shangrila and look at the grass, that's why I love it.

One of my favorite games.

You just have to be clever enough.

It is 100% possible to programmatically allow any hex code to be used as an HF theme color base.

Mix - August 2, 2019, 9:14 pm

feel like we are miss 1 colour, Orange. I feel like it should be a dark orange but great work on releasing the red theme

Update I went ahead and did this

?ytes - August 3, 2019, 12:27 am

I'm loving this particular Red theme, more than the Green and the Blue. IDK why.

Red was never my favorite color, but this is eye catching.

Yellow/Orange/Violet/Cyan : any of them would be awesome.

iNviZ - August 3, 2019, 1:43 pm

Now that I'm using the Red I actually really like it a lot. It's my new favorite.

CPA Exposé - August 3, 2019, 1:49 pm

Liking the red but the logo and the background is just too much so switched back to blue. Everyone has their taste though.

KaoS - August 3, 2019, 2:01 pm

i like red, but its a bit hard on the eyes
still like it

Prepper - August 3, 2019, 4:22 pm

The image or whatever was in the OP doesn't load for me because it's https// instead of https://

Sigma - August 3, 2019, 5:32 pm

I can't decide on whether to use the Red or Green. The logo looks better with green, but I like the tranquility of the Red.

Looks red as red can get, must be your screen.

N1ghtm4re - August 3, 2019, 7:25 pm

Anyone using this variation is a serial killer for sure

Why use the aggressive Red when you can use the cool and relaxing Blue?

Venture - August 3, 2019, 8:07 pm

Omni that looks sick. Great work! I love the theme.

Astrogen - August 3, 2019, 8:11 pm

Red looks nice, but I feel like my eyes already love the mobile green. It's softer for my eyes and doesn't hurt as the red does on me.

Shelob - August 4, 2019, 5:45 am

It's Pinkish Red, a very unique color tbh. I don't know why it should hurt the eyes, it's not that vibrant.

Blue and Green are always softer compared to Red. (Aug 4, 2019 05:45 AM)Shelob Wrote: [\[CITE\]](#) I like this red way more better

That's cherry red, the current theme is way more better in appearance imo.

gave it a second go, and it looks a little better to me now (after looking for the 2nd time). hopefully, the background + the logo will get improved, I could use this as my default theme, still using the green one though, will wait for this theme's future update

I agree that the game Red is easier on the eyes. I'm not a fan of the current red theme. I agree with whoever said it looks a bit pinkish. It's harsh and unpleasant imo. Everyone has different preferences though

Money - August 4, 2019, 10:38 am

Red looks good. Where's the green one? The green looks more hardcore. I love it.

Omniscient - August 4, 2019, 1:35 pm

It's very red. It's a choice. I will accept a better logo version if someone wants to make one. I'm not happy with the current red logo. I'll have to spend a bit more time on it I suppose.

Perfect, well ill work on a few different ones using the same logo and maybe a new design for a test ill post them within this thread when they are done ?

lurking - August 4, 2019, 6:22 pm

It is so amazing, I was hoping for Red!

Banter. - August 5, 2019, 6:01 pm

Red is very hard to convert to comes out very harsh, working on a new logo type but here is some different colours on the current logo incase you need some bud.

They look rough on the grey background this is a idea how it looks on the mosaic BG

Yin Yang - August 5, 2019, 6:11 pm

Looks pretty dope!

Side question: what happened to the quick links from the menu? I know that I can access it from the homepage, but it was really convenient as being a part of the quick menu (unless, it's configurable)

tonitones - August 6, 2019, 10:12 pm

I actually find the red themes on a forum a bit cringe but d@mn. It actually looks great on HF theme.
