Do I need any investments for it?

- Yes, small investments are enough (~10 \$)

Which skills do I need beside your EBook?

Well you don't need any to make money except following my guide but if you have some knowledge about marketing/selling items will increase your profit

What kind of items?

- You can do everything online - digital goods

Price: 25\$

I didn't see this method yet and I have tried it ASAP.

Now I have improved the method a little bit by using Advertising and SEO and Referring my friends to buy from me which worked very well

You do need at least \$5 for it to work fast or else you will grind all day to gain that item

So far I have made \$70~\$77 from selling to my friends and \$14 only in some forums in 12 hours/

2nd Method I didn't quite understand how it would be profitable as much but I'll try it and edit this post when I'm done (Aug 3, 2019 11:02 AM)Santan Wrote: ([CITE](#)) OP Sent me a vouch copy

This method isnt private at all, its a guide on how you can resell something with a good profit
