bro im getting this error "Uncaught SyntaxError: Unexpected token 'var' " someone help please

yubdub - September 20, 2019, 6:52 pm

This doesn't guarantee anything. Method doesn't work. HI/LO went bust 3 times on me - as I knew it would.

Nice use of a 'method' posting for a grab at some referrals - all this is.

Wget - September 20, 2019, 10:25 pm

Would you be able to PM the method. The link won't load for me.

Hey Boss,

I am getting this as error.

Uncaught SyntaxError: Unexpected token var

What to do ? I am trying another browser though.

Let's see what to get.

I have used this script on my # account, I have started with 3500 satoshi the first time, and busted
very very quickly.

As Per OP's Advice, I deposited 82,344 satoshi (~\$4.50 usd) into my account, which is roughly
enough for a streak of 13 on a base of 10. currently a few rolls away from 2,000 rolls at time of
writing- with a net profit of 14,200 satoshi. it's been approximately an hour or so

So far So Good!

UPDATE:

ran for 4 hours, lots of glitches, timeouts etc,

Busted.

not working. too many factors make this unsafe.

thanks for the method anyways, OP.
