Skills: Social Engineering, Cracking, XSS, Programming(JS,PY,LUA), Problem Solving, Networking.

Examples of your work: I do not have any public examples, However, I've got my games and scripts I've made on another platform called "Roblox". I'll happily share it with you if you wish to review it.

Tutorials you have released: <https://hackforums.net/showthread.php?tid=5849430> (its not much

since I don't use HF to share my stuff, I don't feel its worthy enough for the forums)

Are you willing to teach others?: Of course! I'd love to teach others and help others improve. I always do on discord and other platforms :)

Do you work as a Group or Individual?: Usually I work as a group, Sometimes on my own. It really depends on the project and if I need more people to work with. Hence, I work as a group most of the time.

Skills: Writing insightful threads that gives a brief, but detailed understanding of the subject I am writing up - primarily crypto currency and its surroundings.

Examples of your work: Nothing - anymore. I am, however, starting out again.

Tutorials you have released: As stated above.

Are you willing to teach others?: Yes, that is all I used to do. Sharing my knowledge and expertise to a wide audience. I was able to write it in simple, understandable words, so it was insightful for everyone - experienced or beginners to crypto currency.

Do you work as a Group or Individual?: I would love to work with a group of people. I have an idea, and I'd happily share this with you directly, if interested.

Username: DrSpicyHot

UID: (userid found in your profile page link): 3498413

Skills: Homework service provider. Cryptocurrency enthusiast. Content creator. True knowledge seeker

Examples of your work: My countless client homework examples are confidential ofc. I make predictions about cryptos <https://hackforums.net/showthread.php?tid=5985565>

Tutorials you have released: <https://hackforums.net/showthread.php?tid=5669249> my testimony is basically a tutorial in a way <https://hackforums.net/showthread.php?tid=5920727>

Are you willing to teach others?: Yes I am. I contribute to helping others get a better experience of HackForums whenever possible.

Do you work as a Group or Individual?: I work the best when given Individual tasks because I understand that there is no room for error, and thus I cannot push work onto other people to pick up the slack. My homework biz is a one man team, I am the sole operator of everything. However, I am a great addition to any group because I tend to seek out the best traits in people and combine them so that they can all achieve their best form. I offer unorthodox, often spontaneous, and innovative solutions to problems.
