Thread: [Blackhat Paradise - Earn Without Any Work \[Autopilot Method\] Vouch Copies Available](#)

TheInferno - August 8, 2019, 9:45 am

I am presenting you Blackhat Paradise - A money making method which is going to make you money without any work at all.

I won't say this method is a new one (many of you may be aware of it). The special thing for it which I am adding myself - is that I will make it completely autopilot for you

This method won't work in every country.

You need to be 18+ (or have friends or relatives to help you with the method)

This method will require you to invest (It works with smaller investments but it's better if you got more money to invest)

You won't have to do any work at all - everything is pretty much autopilot

There is no chance you won't be able to earn with this method

Earnings will be in a couple of days after you've done the method to maximum 1-2 weeks (There are few factors that determine when you will receive your earnings)

If you are doing the method my way - you won't have any problems with the law or any other institutions. You should not abuse my tips!

I will be more than happy to answer any of your questions and provide you my full support so you are able to earn good with the method.

You can buy it for only 50\$ for now

I would kindly ask some trusted users to review it for me. Have a great day everyone <3

I'll take a vouch copy, after these questions are answered:

1. How is it paid out?
2. Do I need id?
3. Is this related to coinbase?
4. How much money per week?
5. What is the initial investment?

luckylivez - August 8, 2019, 9:51 am

1. You can get paid by many different ways - but cash money will be the easiest
2. I personally never needed to include my ID but I think laws in different countries are different so I will just say you may need it
- 3.Nope
- 4.It depends on how much you are willing to invest. Your earnings are based on your investment
5. Will work with investments as low as 30-50\$ but there is no point in investing that low

I'll take a vouch copy based off that.

You said "This method won't work in every country". Can you state said countries for example? And also does it have to do with chatting with people, or selling a product or service?

And what do you mean by "cash money will be the easiest". Is this method not online method were one can maybe get paid with btc?

It will work in 90% of the countries.

It has something to do with selling a product

You can also get paid with BTC but it will make the stuff reall complicated

Keep us updated with an HONEST review mate.

Can't wait to read it.

TheInferno - August 9, 2019, 8:51 am

Just sent the last vouch copy :) Tempted to check the reviews

FYeah - August 9, 2019, 2:37 pm

Received a vouch copy from OP.

This method goes against HF's T&C's I believe, it is also a very public method. I actually did the method a couple of weeks ago.

I don't think it's worth the money as you can find this guide, or something similar leaked on other sites which I won't name here.

I appreciate the OP letting me review it nonetheless, perhaps he did not know. Maybe a mod should look at this and decide for themselves.

Peace.

I didn't knew the method is against the rules. Closing this now :)
