Thread: [Minimalistic Car Landing Page \[Adobe XD Freebie\]](#)

? THEINSPIREDONE - August 8, 2019, 4:12 pm

Hello everyone!

I'm trying to sharpen my skills & my overall workflow in Adobe XD, and what's a better way than just practising on a self-created project and having fun with it!

I'm releasing the project file of Adobe XD as a freebie for anyone who wants to play around with it!

[Download XD File](#)

Any thoughts & feedback on the design is always greatly appreciated!

Very nice design, looks sleek, perfect for a car like that, definitely a good job. What is an XD file though?

It's a really easy to use, new, interface of Adobe Products and it's amazing when it comes to building web layouts!
