Thread: [Any intrest in this? Free sports picks.](#)

Pronouncer - August 9, 2019, 8:01 am

Got bored decided to start coding a site. So far spent around 20 mins on just a backend framwork for it.

Just wondering if there would be an intrest in 100% free sports bet picks?

Note: Im a backend dev so my front end capabilities are dead so any suggestions appreciated

Preview (Note just a rough draft to test out api's

I mean things like blogabet and tipstrr already exist

Tipstrr could help out, or any twitter tip pages really.

I'm not asking for picks. I do my own I'm asking if there is an interest in completely free handpicked tips. I might add a auto bet bot for bet365
