Natas - August 9, 2019, 2:13 pm

I am hiring some one to mentor on ebay and make a sells man.

I am making money like mad on ebay right now and I am making a ebook that will come out in a few months hopefully ! It will be how to make \$100's in a day on ebay but it might be months before it comes out cause I am so busy only working on it at a little at a time ! This will be a method thats going to be used in my ebook and its guarantied hits investing in me to get you started right now will give you access to a great niche that is unkown and just made me \$100 in just last night. You will be selling through me to make a profit.

Requirements

Able to sell on ebay.

Verified ebay with good feedback

Verified paypal to sell with ebay

This is for only one trusted member \$50 now and I will get you started selling today.

I will set up a auto piolit ebay niche for you or help you set it up and you will start earning in hours at increments of \$20 or more !
