Thread: [Need multiple people who can sell for me! 100% profit for you.](#)

Money Inc - August 11, 2019, 12:54 am

Hello, I source products its what I do very well.

I need people who are really good at selling.

requirements are you sell during the day, I supply full inventory, we do a good split. All of this is virtual, nothing illegal or psysical.

You would then pay me as a supplier directly to my business, the profits range from 10 bucks to 50. They sell quick, and I can supply them as needed. Please have experience selling, and understanding of the virtual game item market.

Requirments are a xbox one, anyone serious with proof will receive the game for free from me. I need you to be able to have clean records and communication to me.

Please, be 18. Give godly customer support.

What sort of virtual items are you able to supply?

As long as you have a xbox, and are able to show you can sell. I will discuss the main game and what I need from anyone that seems reliable.

I can supply 5-10 sellers, depending on how good they are with sending me my money. Customres, etc.

So far this month, (With 4 days without selling) I have made around 2000 USD. I will average myself 10-15,000 USD per month.

Any sellers can make plenty 4-5k USD per month selling for me.

Will show anyone serious my payments this month, expecting another 300-600 tomrrow.
