Thread: [Giving away a drop ship product making me \\$500 per month!](#)

Money Inc - August 12, 2019, 8:24 am

Giving away to one person (Can't ruin the market can we) One of my products which I don't wanna do anymore.

The product is only good for certain times of the year, its gonna be shutting down in about a month or two but it will come back every year for around 6 months.

I do it slow, 1 product at a time, just generate a little bit of income for me here and there but I'm going to give this away.

One person, Must be upgraded, Must be cool and this product cost \$15, you need a phone also.

Like I said, I'm giving someone a few hundred bucks per month here. Tell me why you deserve this.

Cost to start the drop shipping - \$15

Recommend you have \$50

Profits \$300-500 per month. USA drop shipping. (I've sold everyone I've posted)

I find this amount of profit to be to slow for me to wanna keep doing it, opening the app is a hassle.

Would really like to know the product if you deem me worthy haha. Been looking for a suitable product to start dropshipping the last few days, but haven't found the right one yet.

I think its a bit weird to say why I "deserve" this. Probably just as much as many people on the forum here. I'm a student, so I could really use the extra money, but who can't use some extra money haha.

Let me know, meanwhile I'll continue searching for a winning product myself as well ?

This was given to a member in need. Helped him set it up and everything, thanks for the entries though.
