Tons of skins, lot of champions and many more.

I've stopped playing and i wanna sell this to a new owner. I'm tired of this game lol.

My BUY NOW price is 100\$ USD via Paypal, Skrill, Crypto.

Here is a list of all the skins/champions/wards etc.

The account itself is unranked, 65 level with 2327 blue points.

I have like a Bronze from S2 and a silver from S3 and a gold from S4.

Last season i played was 3 years ago in S6 which i ended Silver.

The rest are all unranked.

I'm interested in this.

How many champions does the account currently have?

Let me know & I'll throw you an offer.
