Thread: [separate "e-whore pack" section](#)

Literally 8/10 posts are "free e-whore pack dm me" threads, can't we have a separate section for this?

I totally agree with this. Back in the day the ewhoring section was filled with HQ threads helping people. Now its just pic pack giveaway maybe to fish for rep or something.

They are all found straight off Google Images

why don't people look at the dates lol, i see posts from like 3 years ago with new users replying to them and not getting a reply. it's making the e-whore section useless since all there is on here now are pack posts from 2016/17

because its mostly beginners looking to scrape up anything they can get, some people are just late to the game and sometimes old packs get less saturated after few years pass.
