Got another one done. This is still wip as we'll go further up the arm.

Book_a_Bot - August 15, 2019, 10:30 pm

How would you rate the pain level on a scale of 1 to 10 while getting it done?

I'd say 5. It was just annoying type of pain. Nothing unbearable at any moment.

Very nice, I like the circle, edit post with another pic once it's healed

Nice ink mate

Looks nice.

Are you satisfied with the results?

Pow3r - August 16, 2019, 10:54 am

A little too public for me OP, but nice. How far are you looking to take it?

oRequiem - August 16, 2019, 11:03 am

Looks raw brotha, good taste.

Omniscient - August 16, 2019, 1:41 pm

The hand work is great but not sure I like what you did on the fingers.

Reminds me of a puzzle game I played on PSP.

Your artist is a little heavy handed but that's nice!

Sigma - August 16, 2019, 2:13 pm

That shading must have taken so long haha! Pretty cool looking.

Deal - August 16, 2019, 2:14 pm

Looks good. I have ink all over my body, including my hands, neck, etc. and even in my ear. I can truly say that along with the chest, the hand is the most fucking painful place ever.

Looks dangerous like a bad boy ,well done!

I got a few on/near my hand and yes, it is fucking painful. I have a part that naturally faded. When I got my next one, my guy offered to touch up the faded part for free and I told him fuck no. I've been rocking this faded shit ever since.

Very nice, the artist did a wonderful job with the line work especially around the fingers.

Oran2009 - August 17, 2019, 1:14 pm

Looks like someone took your photo and posted it on a different forum claiming it's theirs.

Look sick, how far up your arm are you going to go?

Benji - August 17, 2019, 6:45 pm

That honestly looks so painful. My fiance got a hand tattoo a few months back and she could barely stand it. Nice tattoo tho! Looks amazing :)

Lovely design, seen a few of that style on IG. I have my hands done, really notthat painful. I'd say when I had my elbow blacked out was the most painful.
