Thread: [Introducing Dawn Agency](#)

Dawn Agency - August 17, 2019, 4:59 am

Greetings everyone,

My name is Chris and I'm the co-owner of the Dawn Agency. We're a new digital agency on the market, founded just roughly three months ago and HackForums is not new to us. My friend and partner used to be active here and he actually introduced me to this forum. This looks like a great place to offer some of our services and I hope we'll find a decent amount of clients here. I would say this is strictly business profile and you won't see many lounge posts from us, but we'll definitely try to add some value to the forum with the knowledge we gathered so far.

Our services include: Web development

Marketing

Video editing

Graphic design

As I can see there are a lot of great designers here so we'll focus more on web development and marketing. I guess the first step would be upgrading the account since I got a feeling that it plays a huge role in gaining trust. After we upgrade the account, next step would be editing the profile and doing threads based on our services.

Hope you'll accept us!

- Dawn Agency

Welcome to HF,

Can't wait to see what you have to offer.
