Thread: [\[\\$3\] Send Fake Live Snaps ! ANDROID](#)

Jingley - August 18, 2019, 12:44 pm

Hey,

As we all know that the source for the Fake Live Snap App has leaked (Please do not sales trash my thread with links and what not) and for those who are in need that cannot do it themselves I am offering slots for the App to send Fake live Snaps FOR \$3 (BITCOIN). Free Username Changes are offered without a problem.

This is for Android Only. IOS is more of a hassle to deal with Developer Certificates.

This is how the interface looks:

It does lack Auto-Crop Function so all of your pictures must fit Snapchat Size (16;9) To look legit. Other than that it works perfectly :)

PM Me or Open a Contract to purchase.

Free vouch copy can be offered.
