Thread: [Bug report about thread actualisation](#)

Fhack - August 19, 2019, 4:17 am

Hi, i notice that in my sell thread, the posts take time to be show, i receive notification but i can't view the post.. Second time this happen after some hour / or sometimes a day, it finnally show the post !

Eagle 95 - August 21, 2019, 12:34 am

That's a very old and well known mybb bug that happens on threads with lots of replies. I don't think much can be done about it as it was reported many times.

Maybe you should do another thread on your computer to expose your problem on mobile version !
