Hello, i found a new site, which can help us to make some profit. I am still testing it, so cant give you 100% that it will work for long.

Start making your profit here JUST PLACE + IN THE COMMENTS FOR MORE INFORMATION

So, more about the project and my results:

1. You are making your profit doing arbitrage trading
2. You dont have to do trading yourself, the program is doing all the hard work (but because of that they are taking about 2/3 of all the profit after every trade.
3. I started 7 days ago.
4. Made about 20% in profit after one week.
5. You can make a trade every 4-5 hours (just need to login an place the best order)
6. One trade can give you about 0,5-1% in profit
7. I started with XLM, now trading LTC.
8. If you have any question fell free to ask
9. You can repeat and compound the trading every 4.5 - 5 hours and it will just took about 1 minute for the whole process.

Minimum trading amount:

BTC 0.02, ETH 0.5, LTC 1.0, BCH 0.5, Dash 0.5, ZEC 1.0, XLM 750, BSV 0.5, BTG 2.5, XRP 250

IMPORTANT: i tested it with deposit and withdraw and both were done in seconds. The project is running about 2 months, last month there were about 600 btc in investments, now there is about 3000 btc, so the project is rising very fast.

GOOD LUCK
