Thread: [Spartan Gold Crypter Issues](#)

Apricus - August 21, 2019, 3:40 pm

Hello everyone,

So I just recently purchased a month of Spartan Gold to crypt my Quasar .exe payload and im having an issue where the .exe will connect to my server before its crypted, but after I use spartan on it, it no longer works. Does anyone have any suggestions, did I get scammed? Ive tried almost everything suggested by the developer.

Best,
DarkHorse

You didn't get scammed. Spartan Crypter guys are not scammers. PM him and he will surely resolve it for you.

Try to use "itself injection" and disable ALL settings on quasar rat such as startup, installation, persistance etc.
