Thread: [Allegiance Ecom - Your chance at a FREE DROPSHIPPING MENTORSHIP! Make passive income!](#)

SIM-3323508 - August 21, 2019, 9:01 pm

I currently own the official group Allegiance.

I am going to soon start my very own eCommerce mentorship based on Shopify and dropshipping all the way to starting your very own private label brand if you are able to get that far.

I currently run multiple stores earning anywhere from \$50-\$500 daily and have been dropshipping for quite sometime. I currently also run one private label product where I am importing \$30,000 in merchandise per restock - this is not even for dropshipping I sell these all local.

My mentorship will include

- How to set up a store
- How to find winning product(s)
- How to set up your ads & scale them

This is basically a vouch copy for a paid mentorship I will soon be starting up. You will also be invited to my official hackforums group, Allegiance.

If you are interested in joining please post with why you want the free mentorship.

The only stipulation is you have at least \$250 for start up costs and that you will get your store live and post results within 10 days of starting the mentorship.

luke - August 21, 2019, 9:20 pm

I'm interested. Do I deserve it? I have no idea. I don't really have a sob story or anything like that. Going into university next year and would be nice to have this as a primary income stream to help me out along the way and hopefully grow the bank account a little by the time I leave so I can do a bit of travelling before I "settle down" in life. I'll happily invest \$250 into startup costs and provide reviews and results along the way.

Thanks for the giveaway.

SIM-3323508 - August 21, 2019, 9:27 pm

Thanks for the giveaway.

Luke,

I would never recommend this as a primary income stream unless you were doing private label simply because Facebook can revoke your ad account due to customer feedback (I have never had it happen but I have seen friends get rekt for slow shipping speeds and dropshipping LQ products). I

am not saying this will be you but never rely on a 3rd party to allow you to earn. This is why I am all about moving to private label if/when you find a winning product that isn't just a fad. I will consider you as someone to allow in my free mentorship I probably won't let this thread run through the weekend as I want to build my list quickly.

Edit: Removed the why you think you deserve it because truthfully nobody deserves my knowledge for free. Instead I want to know why you want it, which you already stated why. I think dropshipping could be a good supplemental income for you as you go to college.

Nas - August 21, 2019, 9:48 pm

This is an awesome giveaway you're offering MMLF, I've always been interested in the dropshipping business and still do but just don't have enough time anymore. Anyways GL whoever wins this.

Pikachu - August 21, 2019, 10:09 pm

Thank you for providing this opportunity to the community, I would definitely love mentorship in drop shipping, god knows I need it. I would highly benefit from being able how to properly start a drop shipping service. I believe I deserve the chance to receive mentorship from you because this may be a golden opportunity for me to make some extra money in order to not only feed myself, but to help feed my family whenever we may be struggling. I myself am very poor, so is most of my family. Especially the ones I live with, my mom, brother, 3 sisters and my stepdad. Me, my mom, my stepdad and my sister all work jobs in order to survive. We barely make enough to pay Bill's and get groceries. Sometimes we can't even afford a payment for certain things like phone, wifi and the cars, so we try to set up payment plans and even then it's still hard to keep up. If I were to successfully implement dropshipping into my life as an extra source of income, it would help me out greatly. I may finally be able to put some money aside from that to save up for other things I can't afford. With all the Bill's and expenses at the current rate I'm at, every check I get goes to bills or some sort of payment and I'm usually left with little to none. If I'm lucky I would have like \$50 to myself to spend on whatever I want, and usually I end up saving it for food or something whenever I need it. Overall, I believe anyone deserves this mentorship you are offering as long as whoever gets the mentorship actually puts in the effort. Thank you for this opportunity and blessed be. <3

Dear MMLF,

I think id be a great advertisement FOR YOU!

I'm an adult, i have a fulltime job, with plenty of spare time. I have a steady income with the possibillity to invest in the right ads.

The reason why i am the best choice for you, is because ive been looking for successtories for a while now, and people intent to tell fake stories here on HF and you and i can start up something real and transparant here and create THAT succes storie together. Id like the be inspiring for you, the people who are not experienced just jet and everyone who has doubts on your mentorship. You and i can make that possible.

I have been roaming around HF a while now, contacted a few "mentors" for some info. Did my online researches. I'm ready to be mentored.

You and I are a succes factor?

Giin - August 22, 2019, 2:55 am

I'm intrested, motivated and determined to start your mentorship.

Bael - August 22, 2019, 6:04 am

Hello MMLF,

I would love to participate in your mentorship. Why? I've done dropshipping before which resulted in a small profit for me. I got the results doing ads on Instagram. However, I didn't have a clue how to do converting ads through FB.

I want to try it once more with proper marketing and plan.

Thank you for your offer.

#Martijn - August 22, 2019, 12:16 pm

Hey man,

First of all, I know I do not have a high reputation around here, not sure if you look at that. Used to have around 300 before the rep reset, but anyway. Secondly, awesome giveaway. Giving something like this away really shows that you're confident you'll make your mentorship service work.

I've been busy doing research on shopify for a week or 2 now, and I'm really interested in starting my own store. I'm a dutch electrical engineering student, and I could really use the extra money. I recently stopped working at the IT company I was working at (techsupport job). The main reason for this is that most of the times I can't work during normal office hours due to my study (got to go almost every workday and schedules change every week).

Also apart from that, I really think that I'm going to enjoy running a store and I'm highly motivated to make it work. I've been struggeling with finding the right product. Could be because I'm looking for a product that is too perfect, or I'm just not looking the right way, not sure haha. I'm also kind of reluctant to try as I have limited money to invest, and advertising the wrong product would mean I won't be able to start another store for the time being.

Anyway that's why I would really like to participate in your mentorship; the extra source of income and because I genuinely think I'm going to enjoy running it. Again, if my reputation is too low here to vouch I completely understand.

Thanks for reading,
Martijn ?

Pronouncer - August 22, 2019, 12:17 pm

i mean honestly you should just add me for the bants

Timo - August 22, 2019, 2:26 pm

Really interested in this.

Dropshipping is one of few subjects i don't know anything about (well i know the basics but that's it). It has been something i always wanted to learn about but couldn't find the right person. Would be enlightened if you are willing to teach me all the ins and outs. I have the funds and would be more than happy to post earning reports time to time.

myg0t_Andrew - August 22, 2019, 2:30 pm

Cool stuff, might be interested.

ProtoUltima - August 22, 2019, 2:40 pm

Hello!

I'm extremely interested in this service you're offering.

I've read through the conditions and I have the funds ready to start things up.

I've run into a pretty rough patch in my life and I'm looking to get involved in something like this in order to gain a bit more control.

So if you're willing to mentor me, you'll have an extremely appreciative and attentive student to work with!

Many thanks,

Storm

335i - August 22, 2019, 2:46 pm

Posting to enter, I have around \$10k sitting aside just waiting to be invested, and have been curious about dropshipping for quite some time. I have some pretty extensive graphic design experience and know UI design quite well. I'd be able to invest quite a few hours daily into this to get it started. Regardless of whether I am picked or not i'll be looking forward to seeing the mentorship soon!

C++ - August 22, 2019, 2:51 pm

I'd love to join.

I can't spend a lot of money testing out the right setup but 250\$ is an decent amount :d

Dorrance - August 22, 2019, 3:50 pm

This is something I honestly want to get involved into, I have been advised by numerous users to join up.

The only kink would be needing assistance where to start and the time consuming part about the job.

If you would like to accept me as a candidate or take into consideration I would surely be gracious.

Gustav. - August 22, 2019, 3:55 pm

Definitely would like to learn more about this.

Hoping you can hmu about this as I'd like to really get started.

SIM-3323508 - August 22, 2019, 7:38 pm

Just want to say I really appreciate all the interest and some of the pm's I have gotten. I look forward to helping those who are chosen for mentorship!

Techie - August 22, 2019, 8:09 pm

About me, I'm from Portugal and I'm studying Computers Science, going now for the last year of the Masters Degree. I'm 23 and I'm passionate about learning, specially in what comes to programming.

Last year, after finishing my college exams, I started looking into Dropshipping to try and get a good source of income to help me pay my expenses during the time I'm away at college.

I had around 2k\$ to invest, more or less the same I have now, but every post I read, every video I saw, every e-book I got, just seemed like it was made to waste my time and make the owner of it money or reputation. After some weeks of research and talking to some people, I decided that it wasn't worth it because without some good mentoring I would actually be throwing my money into the trash. This is basically why I would love you to be my mentor. It obviously looks like you know what you're doing and that's what I'm looking for. I think everyone's in it for the same, making money. I think it comes down to the work each of us is willing to put into it. In that field you can count on me.

Fish - August 22, 2019, 8:29 pm

Hey, I'm probably not any better than anyone else posting here but I might as well give it a shot.

My English is great, I can talk like I know nothing for English. This way I'm already one step closer to having a self sufficient store.

I'm active, I have time, and I get the job done. Still in summer break so I've got a few more weeks before college starts up again so I can dedicate lots of time.

I'd say I'm fun to work with, I'm sure there are times where it's quiet but overall I'd say I get along with people really well.

I've been interested in starting a shop up for a while. I have read lots of different threads getting some background info on the ins and outs. As a matter of fact, one of my old highschool friends that I ran into the other day is running his own store which is thriving and I wouldn't mind to make one myself. I've been lurking (Shopify and drop shipping) for years, reading up on it but I've just never made a move.

I believe that with your help, I'd be able to fulfill my lurking vibe and put my skills to the test. With what I know (not too much) and with your mentorship I feel like this can grow to the stars.

I've got everything ready on my end, just waiting for a push/boost (you) to get this shit rolling!

Goodluck to everyone and if I do get selected, I'm looking forward to what's to come!

*Posting this from my phone, hopefully I didn't fuck this up that badly

Arbitrex - August 22, 2019, 8:40 pm

I want to discover how to make money drop shipping, to make some money for my family. I would definitely be interested in this.

andywtf - August 22, 2019, 8:48 pm

Hi,

I'd like to join I've built websites, brands and companies before have over 10 years experience in the IT industry to mastery level where I can earn a large sum working as a contractor. However I find working for others soul-destroying and would like to work for myself and I do believe money can be made dropshipping and then transferring that knowledge into say a private label business I'd love to get started and see if this is something that could take over from my 9 to 5 and allow me the freedom to be my own boss.

Regards.

SIM-3323508 - August 25, 2019, 8:59 am

I will be choosing 5-10 people from this thread to join the free mentorship.

Deadmau5 - August 26, 2019, 3:12 am

I would be honored if you select me for this. I've been interested in Shopify and drop-shipping for a very long time now. I tried to set up a store myself some time ago, but that didn't work out because I didn't have the right guidance. I also bought a couple of eBooks and mentorship programs, but they weren't worth it either.

However, I believe I can learn everything and set everything up properly under your mentorship. You're one of the members I respect the most on HF, and I have no doubt that you'll be able to teach me how to set up a store, find the right products and, run targeted ads to get more conversion. I can assure you that I'm 100% willing to invest a great deal of time and money in to this.

SIM-990284 - August 26, 2019, 4:52 am

Hello,

Extremely interested in being able to learn from you. I'm currently a full time web and graphic designer and have been a part of several successful ecommerce businesses. However, I have never actually been a part of the marketing side of things meaning I don't know how to sell product.

I would love to be able to learn this skill as it would mean I would be able to venture into opening e commerce stores on my own.

I would happily help you out in return or the other people you choose to mentor, I'm sure you already create your websites yourself but wouldn't mind helping out with graphic and website work seeing as you will be helping 10 individuals.

Genuinely look forward to hearing back from you, I already have a store and product all setup, just need your help to get that initial push

Also have 500\$ to invest and for sure willing to leave a honest review at the end

SIM-3323508 - August 27, 2019, 7:39 pm

There is no guarantee your first product will be a winner that is the hardest part. I can teach you proper research but that does not always mean it's 100% going to be a winner. I have had multiple stores and sometimes I still pick losers.
