Yes, this looks too good to be true, but this is not fake shit.

No one will give you money for nothing. No, you won't be rich after this.

But hey, after a proper setup you'll be able to earn from your screen doing nothing. Isn't worth the starting effort?

If you're interested:

You can make up to \$150 a day (that's what I made in 1 day after one week, but you can do more). This is white hat. Nothing illegal.

100% YOU WILL:

Earn \$50 Your First Day

From 30\$ to 50\$+ Daily Afterwards

Then it depends on how much effort you put.

It's easy, just read the guide, and you'll be ready to earn.

PM me, I answer fast even if I'm not online.

Can you send me the method?

pein - August 29, 2019, 7:41 am

this is after i spent my original tokens on opening boxes so basically 10 minutes
i need like 100x times more to cash out, i will edit my post

the method comes with a step by step explanation
and an auto clicker , he also sent me pm which is nice

the site is new and looks legit, so far but i wont spend on techniques or invest until i see they paying
the offers lead to outside pages so be aware of that
the ads are a bit annoying, they say you can earn more if you disable adblock but i don't think that's
true
also their notification it's straight up a scam anti virus
overall worth a try

if you want cheap xp and clicks (which contain some malware cookies normally) just go to a proxy
site and do it yourself

[The HMA! free web proxy](#)

got 5 clicks and got 5 xp and 10 diamonds, needs a few days to make any decent money anyway

ht291 - August 29, 2019, 1:12 pm

tyush - August 30, 2019, 2:02 pm

Still offering the guide?

pein - August 30, 2019, 2:48 pm

it's fake, in my second day i made around 20 bucks allegedly

yet, the minimum payout is 0.0049 which is around 380 dollars

the "offers" are nothing but fake sites offering huge amount of money, asking for card, not even having a https link, but they are generic

the videos are implemented with an api which gives the gems, only that spending 30 min on a youtube replica for 6 gems isn't really gonna make you rich, featuring average joe cooking show, and videos on how to make "youghurt virus" :D and rich romanian girl with some fake songs

but the xp system isn't scalable with the offers

there is a few games which are playing with your gems, and a BTC price tracker implemented so they spent a bit of time tryng to make it look legit

the xp system is also quite rigged, with a flat 1 to 100 lvlup where you can only earn 1 xp each click, but even spreads malware

their notification is a fake antivirus, and a lot of adsense ads

when your adblocker blocks them, a popup says disable adblocker to earn more but doesn't specify how and why would you earn more

while the flat 100 xp is hard to get on lvl 0 to lvl 1, actually can be faked with proxy, and they don't mind, you need around 2 days to get to lvl 1 without any referral and average luck on opening boxes which accounts to 70% of xp

a little popup is timed each few seconds to show that some people are paid right now, but it's just very regular seconds

they claim that higher levels give better boxes, but actually they still got the chance to be nothing at all like the lvl 0 boxes. also they tend to have even lower amount of bits paid

googling after it, the scheme is that the closer you got to cashout, the slower it becomes to gain any satoshi at all

leaving you at a whopping 20 years to cash out at that rate while their site wont exist anymore

putting "effort" isn't gonna make that kind of money as op says anyway, there is no chance that you could make more than 20 dollars a day, even if it be real money
their terms of service also states that they are not really into paying anything, also they use the worst of categories of the adsense which is quite desperate

so if you think that the rest of the site might be legit, and you do it for a while just to see, no point really, with my tempo i would have made the 380 in around 20 days, yet people who got 3 months are still not anywhere close
