Anyone know anyway to get CSGO skins free or maybe even hack CSMONEY or something of that nature. I've been trying to find reliable sources but can't trust any. Ty. <3

You can't.

Don't bother wasting your time.

As the guy above said you can't, but if you want to use skins in-game you can just use a skinchanger

If it was doable it would already be patched. These are businesses, once they start losing money they will notice it and solve the issue.
