Sceptic's Shopify Niche Ebook

This method contains a file of several pages which shows you how to build a Shopify store from scratch, as well as an extremely profitable niche. This niche is not seasonal and it is not saturable. The products which we will sell will always be in demand. We are not going directly to Aliexpress and ordering goods, the entire 'dropshipping' process is done by Oberlo.

Absolutely zero experience or knowledge about Shopify/dropshipping is needed for this guide, everything is explained.

Frequently Asked Questions

Q: What are the profit margins?

A: You can sell the product for roughly 300-500% of your purchase price,

Q: Does this involve selling socially engineered or scammed items?

A: Nope, these are not goods that we are purchasing off SE'rs or refunders

Q: How much is my initial investment?

A: Shopify can not be done without an investment. \$5-10 is recommended to begin.

Q: I have no knowledge can I still do it?

A: Of course. I do not consider myself to be some 'Shopify guru' and I still find great success with it. I make everything as beginner friendly as possible.

Q: Can I get a refund if I what the niche is?

A: If you somehow think you know the niche, feel free to pm me before you purchase it and I will let you know.

Anyways, as your first buyer, hmu with at A+ support please, thx :P

Still waiting on the e-book.

I got the e-book now.

My thoughts so far: The guide is honestly pretty straightforward. Not a bad guide, though it's something I was aware about before, but never actually thought of doing. It's nothing crazy. It can profit and I do believe it can be scaled (Though not by a lot).

I'll return soon with my thoughts on it as I am working on the store as we speak.

you provide us with ad targeting for these products?

Shopify is proven to be overrated, are you sure this still works?

No point in debating with someone who thinks ecommerce is "overrated"

And yes, I am 101% sure it works.

Targeting is not easy and can cost a lot of money to test.. if you have proven audiences for the products you're telling is to sell, that makes a huge difference

Sceptic - September 13, 2019, 3:32 am

Will be adding a new niche soon after some more testing is done!

Price will also rise soon

vlajke - September 23, 2019, 8:16 am

Hey bud,

Does the guide comes with some ad ideas as well and if so what's the recommended investment/budget? If not, does it explain how you can get traffic in your shop? Apologies if this was asked before.

Also, I see you planning on adding new niches, will all existing/new customers get it as well?

How many products a day can it sell, if everything is done perfectly?

Ty

Could I have more details on this if you have any more? Looking at expanding my investment portfolio and I know you need to pay for shopify to keep it going but I have been interested in it for quite a while but haven't had the knowledge to get going.
