Thread: [Get resellable items, worth \\$475-\\$725, for less than 1 dollar \(grey hat method\)](#)

Anzee - August 31, 2019, 7:11 am

I have received permission to resell the method sold by banned member rreyes0401 on thread <https://hackforums.net/showthread.php?tid=5995616>

Due to the overwhelming interest in the method I have raised the price to \$100 BTC.

These items can resell extremely quickly.

Method is original and unsaturated.

The method is repeatable.

There are no vouch copies. The original thread reyes posted has everything you need to know.

You will receive the original unedited PDF and assistance from myself as I have successfully used the method to make pretty good money.

Any payment proofs ? Or how do we know it's the same copy the user rreyes0401 was selling as he is banned and we cannot confirm.

Also, No vouch copies. Seems fishy.

If by "gray" you mean fraud, close the thread. I am unconvinced this complies with HF rules.

You can scam us easily... so put here some proofs.

I don't believe this constitutes as fraud.

The previous seller's thread has all the proof you need as well as reviews.

It is the exact same copy as it is from the same mediafire link he was sending out. I am a contracted customer on the previous thread.

Received a vouch copy and proof. Will leave review shortly. Thanks

This is an invaluable method. Don't hesitate to purchase it or ask for more information.

You were the one who received a vouch copy from the original seller, and now you're selling the method instead of being making money with it.

I'm allowed to do both. There's nothing against any rules that says I can't sell the method with permission as well as use it.

Anzee - September 10, 2019, 10:58 am

This method is still for sale! Don't hesitate to ask questions.

Where exactly on the thread have you been given permission to resell?

Took a quick view but I don't see something like that?

The original user was banned for unknown reasons.

I have taken over sales of this product.

Quote from a non-contracted customer of the original seller:

Quote:This method is blackhat as it against the law and deceiving

Not suitable for sale here.
