you claim to have sold 15 copies in a month in the old thread you linked, yet there was not a single buyer that gave a review or feedback.

which will clear up any confusion!

Ancienty - September 2, 2019, 6:09 am

The method is straight forward but I haven't had the chance to do it yet

I don't see why this wouldn't work at all.

The only thing I can see anyone struggling with is limitation on how many times it can be done.

evelution - September 2, 2019, 6:29 am

UK only. Can we implement from USA with vpn?

Will be shortly testing in the USA to know whether it works

But for now strictly UK

High probability it will work in USA since the company is originated from USA

But if you would like to try be my guest

I am not in the USA to try yet

This is at your own risk

You can't vouch for a product you have not made any money on. You have vouched that it's "possible" to make money on it, however you have yet to show earnings directly coming from this method.

Will you accept paypal for this ?

Lyceum - September 3, 2019, 5:01 am

Good news is i am offering \$5 off to anybody which purchases within the 24hrs of the relaunch I think you should consider giving a vouch copy to someone in USA for them to test to see if it works. While I'd be happy to review, I don't even care if it's me. I'm def interested in this and if you can confirm it works in USA, i'll probably buy. Just sayin. either way, GLWS!

steviejenkins - September 7, 2019, 10:08 am

I have not yet tested this method, but I will update this once I do.

For the price, it's worth your while, but if you're in the same position as me, you're only paying for awareness.

It's fairly easy to understand, but there are a few errors.

You also need an investment.

You can do this whenever you want, but there are a few factors to take into account.

No other human is involved, so this doesn't involve social engineering/scamming or anything similar.

The results won't be instant, so it could take a few days for you to profit.
