Previous thread (2 years ago) had 100+ vouches! I am back, taking a break from regular work and spending time with family. No unfinished contracts or scam reports.

Let's get this thread going again. I'm back to work, and I'm ready to take on more jobs. I will develop anything that you request, you can take my word on that, so don't be shy.

Taking BTC, LTC, and XMR as payment. I take 75% of the payment as upfront collateral, and the rest upon completion.

I take every project you can imagine, and the code quality lives up to those defined by Microsoft themselves.

For the last 1.7 years I worked at a cryptocurrency exchange as a backend developer. I do not take freelance jobs under 100\$, and I will never provide hacky/non-maintainable code.

Answered both requests sent on Discord. Still available to work! Ruse#2102. Taking all jobs, no matter the ethics. It is not illegal for me to code illegal things, it is only illegal for me to illegally spread it.

Yes, we came to a mutual agreement. As you'd also be able to read in that thread, instead of trashing this one. But thanks for your concern.

such a nice and chill guy, answering and helping me and i didn't pay anything yet :) a family man!

riekal - September 14, 2019, 2:46 pm

Send you a friend request on Discord. I have some work coming up that I could possibly use you for.

log dot zip - October 10, 2019, 7:58 pm

I'm still taking jobs. I'm working on some products of my own right now.

log dot zip - October 12, 2019, 6:44 pm

Bumping. Still taking work!

Java is unfortunately not something I write in, though I hear it's very similar to C#.

Working with the OP. Placed a \$xxxx+ for optimizations and some fixes for my website. OP's a pretty chill guy to talk to as well, and very knowledgeable.

Looking forward to it!
