Thread: [\[AUTOPILOT\] Earn BTC daily on autopilot, 3 minute setup and earn!](#)

Juicy - September 1, 2019, 7:53 am

This method is extremely simple and takes a small amount of time to set up. Once it is set up the work is done, and you will earn bitcoin 24/7.

The earnings are small at first (Few dollars a day) but over time you will be growing how much you make.

It's completely free, which is also nice.

To get the method, post on the thread below and when I have time I will send it to you. I do not want my messages flooded so do not PM for it.

OP, at least mention this in your pm. i did try and invest 10\$ though, i have 556points, invest x2 to half of what you invest. _____PAYMENT POINT_____

Payment points calculate the withdrawal sum.
1000 Point = 0.001 BTC.

For withdrawal 0.001 BTC you need 1000 Point on your account.

Point are credited by :

Replenishment. You obtain +45% of the replenishment sum.

Referral replenishment, you get 30% the bonus.

Replenishment of the account by any player 10% , the replenishment sum is divided between all the players who were active during 24 hours.

Frequent questions and answers to them :

A : If the Point end, can't I order payoff?

B : Point are credited even if you have no referrals: by every replenishment of the account, by any player 10% of the replenishment sum is divided between all the players who were active during 24 hours.

A : Active referral . Who is it ?

B : Active referral is a user who has replenished the account or who has replenished referrals.
