Thread: [best native crypter is cyberseal](#)

**Mrspy17** - September 1, 2019, 11:13 am

seen good with my warzone rat (native) 1week still got detected only 2

i recommend you use options of cyberseal

some guy got detected because dont know how to use well

contact for help with cyberseal : [Telegram: Contact @hackingtoolsprv8](#)

Bro if you ever code a stub which is native please update sales thread.

net 4.0 is really high requirement.

net 4.0 is really high requirement.

why are you using this thread to chit chat?

.net 4 is the most popular right now, only win 7 comes with 3 preinstalled but will likely get 4 later too trough updates or other programs

hence that's why i upgraded the crypter from 3 to framework 4 about 1 week ago due to many requests

<https://gs.statcounter.com/windows-version-market-share>

Does windows 10 default install have net 4.0 by default?

ty

2. you are not cyber coder, you can't give support for other people just like that.

3. 2

4. 3

5. 4

i smell jealous

cyberseal mean focus on native rat support as well
