Thread: [Photography + graphics from Red central production](#)

**Getlogo** - September 2, 2019, 2:05 am

Hello, this is only a few of my recent shots done for clients or pleasure, they are all uploaded in small resolution because of the slow internet access i have right now, i do product photo shoots, model shots, and photo manipulations with photography.

Drop your critics or comments below

Pretty professional standard :D

**Condasoft** - December 4, 2019, 5:28 am

Some of those set designs are terrible, there is marks all over the coffee machine and the bed is untidy in the last one.

**Bastille** - December 4, 2019, 5:30 am

Nice,

Which material did you use to shoot these photos ?

Thanks, the last image the client requested the bed to look natural, not photoshopped, insisted of doing that shot, and for coffee machine, it is quick instagram image, no hustle to clean old coffee machine in use everyday, just for that

But thanks for notice, i appreciate it, shows me that you didn't just retry to get post number :)

Kind regards

Not much of an art specialist, but I like these ones.
