Thread: [Css issue- weebly theme](#)

pein - September 2, 2019, 11:07 pm

I made a theme in weebly, kind of ripped some other sources to make it
It was working well at the start, then some changes went on with weebly, and the bottom of the navigation menu jumped out to the right

i wasn't using this theme for a while but now i want to use it, not many side navigation themes on weebly

it's just a free project so i cant offer you money to fix it

i tried a lot of things, but it just wont go back in place and cant figure out why
can someone spot an error?

it might be just because weebly themes got changed
