EZ-Whore Automatic's Guide to Successful E-Whoring
Introduction

Everyone is always selling these dumb guides that give zero good advice and charging out the ass for them. This is not that. This is an actual guide to getting real, long-lasting, good-paying customers. Instead of doing hours or days of research, it's all here for you.

Skip the hoopla and get straight to the moola.

Who can use this guide?

Anyone. Whether you are already e-whoring and are earning, or just starting out, this guide will definitely help you earn more and pull in more customers.

What's it about?

This is not your typical e-book that tells you exactly how to do a method but this will help guide you through the whole process:

Where to start, how to avoid time-wasters, where to sell, where not to sell, pricing schemes, how to choose a pack, and how to talk to customers.

Price: \$30

It's a few pages long and covers most of the basics of e-whoring, where to get started, and how you should deal with customers.

This is a great guide for people who are just starting to e-whore or not sure where to begin.
