Thread: [Add Uninstall a Program Cascading Desktop Context Menu](#)

Emre_ - September 3, 2019, 9:41 pm

Add or remove a special context menu Uninstall a program to the Desktop context menu. It will save your time, especially if you are installing and removing apps frequently.

Code @Echo Off & Cls

```
REM --> Check for permissions
Reg query "HKU\S-1-5-19\Environment"
REM --&; If error flag set, we do not have admin.
if %errorlevel% NEQ 0 (
ECHO          *****
ECHO          Running Admin shell... Please wait...
ECHO          *****

    goto UACPrompt
) else ( goto gotAdmin )

:UACPrompt
    echo Set UAC = CreateObject^("Shell.Application"^) > "%temp%\getadmin.vbs"
    set params = "%*:."=""
    echo UAC.ShellExecute "cmd.exe", "/c ""%~s0"" %params%", "", "runas", 1 >>
"%temp%\getadmin.vbs"

    "%temp%\getadmin.vbs"
    del "%temp%\getadmin.vbs"
    exit /B

:gotAdmin
