Eyyyy guys, tried to use adobe flash one more time

made this

Edit, done

Crimin4L - September 4, 2019, 7:22 pm

Love the detail in the handle, but no detail in the blade itself, Maybe more work and it'll be perfect :) 7/10

I'm not the best with reflections either but make them transparent, that's a start. Then try to bend the "reflection" around the middle of the blade
right where my mouse pointer is:

I think those are the two reasons it looks off, maybe have the reflection look like a 'V' ? idk
