Shopify Store Dev.

INTERESTED IN VIEWING THE STORES I'VE DEVELOPED? CONTACT ME VIA SKYPE/PM FOR MORE INFO!

Hey hackforums community, I am going to be offering a very special shopify development service to a select few members. As many of you know, I've achieved a lot of success with my main Shopify store over the past year. I've had all of summer to scale my store and it's now raking in a ton of daily revenue. I was really interested in pursuing another store/niche but simply don't have the time anymore as growing and scaling the business takes TIME and EFFORT. I recently ended up reselling the alternate store I completed and realized something, I could still have an alternate stream of income by helping members setup beautiful stores while still having time for my studies. By this I mean, I will provide members with a fully setup shopify store ready to launch based around their preferences & niche. Several professional features will be included in the back-end such as branding, up-sells, scarcity and overall highly effect marketing tactics. On the front-end I will provide a beautiful website design along with designed graphics and an optional photoshoot for your product. I am NOT interested in spoon feeding members to success, what I am doing here is providing you with everything you need to succeed, it's YOUR job to put in the work and effort to scale your store!

The cost of this service will be relatively high simply because I am designing your store to the best of my ability and that takes a lot of creative effort. I will be providing you with the upmost high-quality store including a beautiful premium theme and landing page. The store will be fully ready for launch and it will be your job from there to scale the business. Fortunately, I will be providing you with the best course of action to take for your marketing campaigns to maximize revenue and profit. I can basically guarantee that if you follow my marketing plan you will see the results over time. Remember, this is a real business and it takes investment, time and effort to see real success. My job is simply to maximize your earnings potential in the e-commerce industry.

If you're 100% serious about diving into Shopify than this is the best way to effectively get started without wasting time. I spent years trying to learn how to create and develop a successful shopify store and I have finally reached a point of success. Use me as your key to success by capitalizing on this rare opportunity. I really hope to see creative members who realize the potential of what I am offering here.

Store Development Flat Rate: \$350 USD [BTC/ETH/LTC or Bank Transfer]

Approx. Completion: 7 Days

Included Features

Beautiful Custom Premium Theme w/ Exclusive Functions

- You will receive a fully custom premium theme with exclusive marketing, currency exchange and other features. I will also develop a beautiful engaging landing page that captures the audiences

attention.

High Grade On-Site Marketing/Scarcity Tactics

- My marketing tactics will maximize your sales and ROAS by creating incentive for the customer to checkout. I develop very balanced yet effective marketing campaigns that pull consumers in rather than scaring them away.

Enhanced Copywriting Service

- I will add effective text your site that will comfort and convince the consumer to purchase your products. High-quality error-proof writing builds trust with customers. All pages will be completed (About, Product Descriptions, FAQ, etc)

Branding

- I will create a amazing brand around your product to further build trust with consumers. I will design your brand name, logo, mission statement and more so that your customers know who they are dealing with. You will also be provided with an effective available .com domain for your store.

Graphics Design

- I will develop a set high of quality graphics that bring life to your brand and store. These will be professionally designed in photoshop & illustrator via my graphics design partner. All designs will match theme accordingly.

Dropshipping + Plugin Setup

- I will hookup and automate your store so that it automatically forwards customer info to your dropshipper upon purchase. I will also be adding whichever plugins are needed to run your store in the best way possible.

Marketing Blueprint

- I will provide you with the best course of action to take with your marketing investments. You will receive a foolproof marketing blueprint tailored to your niche for fb ads and other marketing forms (depending on niche). The blueprint will provide you with the steps you need to take for the short run and long run to see high return on marketing investments.

Optional Features

Niche Research & Development (\$150)

- I will research and find a profitable & lucrative niche that provides high profit margins. If you choose this package I can guarantee sales with the niche if you follow the marketing blueprint provided. This can add up to 3 days to the ETA.

Photo/Video Package (\$100 + Cost of Shipment to my Studio)

- I will take professional DSLR photos of your products from my studio. You will be able to use these pictures/video for store content and advertising. You will receive 8 photos + 1 edited fb ad video. You will be required to cover the product and shipping cost too.

I am in need of this service and wanted to purchase but have a few questions:

1. Could I see some of your previous works.
2. How useful is the marketing plan that you provide?
3. What is your shopify experience?

Thank you soul

Thank you for your interest once again. Here are the answers to your questions:

1. I provide links of previous work to all members who are interested in my service. The only requirement is that you must show proof of funds. This is because I put a lot of creative effort into my stores and the niches are profitable so I don't want to be showing this to non-serious buyers.
2. The marketing plan will basically be foolproof in all aspects. I will tailor a precise marketing plan around your niche which I feel will bring the best return on marketing investments. You will receive a plan for profiting short term and in the long run. I am also glad to help with problems you come across while setting up the blueprint but as mentioned I am not here to spoonfeed. What I can confidently say is that if you execute on the marketing plan I provide you then you can expect solid profits.
3. I have been in the Shopify industry for a long time now (2-3 years). It was just over the past year where I started experiencing a lot of success on my main store. I have a marketing degree and possess a lot of information and knowledge within the e-commerce and modern digital marketing industry. These key tools are what helps me develop stores that ACTUALLY earn serious revenue.

Hope this clears a few things up for you and other potential customers. Cheers!

I already bought a store from you but didn't see the niche research part?

Can you PM me more info on that

Thanks

I will ultimately be providing the user with a fool-proof niche that is lucrative and offering high profit margins. I will also ensure that the demand for the product is sufficient and store-worthy. Then I will provide you with the drop shipper for your product and show you how to automate sales with them. The niche will also be paired with a tailored marketing blueprint that focuses on targeting and capturing your demographic and then executing.

I already have 2 niches that meet these requirements and will be providing them to the next 2 members who purchase my service with the niche add-on.

I'm extremely interested in these services you're offering as I realise the long term benefits of getting into this now.

My problem is my current situation. Would you be able to accept a payment plan as when money comes in for me, I have to ensure my bills are paid for, which is why I want to start off with something like this.
