Thread: [i'm going to start a service on hackforums in 2 days. need suggestions?](#)

Stuni - September 7, 2019, 2:34 pm

Hey guys, I am going to sell uber eats food orders on discount and I want to upload proofs here of the orders I have made before.

There are so many screenshots over 50-60 screenshots of orders (max history i have) .

Please tell me how can I upload all screenshots in single frame? or an easier way to make the dealings go through

Meow - September 7, 2019, 2:36 pm

Create an imgur album and upload all proof there.

emotionull - September 7, 2019, 2:36 pm

Imgur album or get a thread design made.

Check the graphics section. Plenty of them on here. Thread designs specifically i'm not sure but I know XanPa is a good artist.
