Thread: [Need a profile banner.](#)

Crypt - September 7, 2019, 3:51 pm

I was hoping someone could make me a profile banner, I would like my profile pic to be in it and possibly blue code in the back. Please make it 1525x200 pixels.

Would really appreciate it if someone could make this for me and if you need more details just let me know:).

Do you have a bigger version of your avatar?

I was thinking it could possibly stay the same size and have my name under it with a cool background?

Gave it a go. Figuring out what to do with that avatar was kind of difficult.

I was inside the photoshop so I gave it a try, here's what I've got:

Banners [\(Click to View\)](#)

Your logo is way too small so the text is pixelated, that's why I added a new font on the last one.
