Thread: [Help with Blackmailer](#)

Hello everyone!

So I am in need of some help, I am currently being blackmailed by I suppose (a crew), transferring money every 2 weeks over western union to the Philippines.

I am close to finishing paying them off but before that happens I would like to find out as much as I can about them and maybe, just maybe hand off all the info to the FBI or the Philippines authorities.

If anyone can help me out, it would be very much appreciated. If I have to hire someone, so be it but let me know your price and if I can afford it, I will pay it!

I normally just lurk here.

But I'll give you a chance.

Firstly, Stop sending payments the moment you stop is the moment they'll send your nudes to your friends and family, You're delaying the inevitable.

Secondly, Use your brain do your research.

Did they name the bank they use?

Can you send a stubbed image for a simple grabify search (They may blackmail you but they don't know how to use a VPN most of the time)

Get the local area they're from.

Google Calling works wonders here (Call this person and state you're from Local police and you're working with the bank about a few fraud cases)

They just want authentication on the money coming in ect.

There's lots of details that I'm missing but thats because IT's currently 6:37 NZST and I'm eating dinner.
