Abstract - September 9, 2019, 12:05 am

Hey guys, what do you think about this?
It took some time to finish but I tried follow my imagination and to find my own technique.

Looks dope man. I bet you can do some crazy stuff in future.

Abstract - September 9, 2019, 1:52 am

Thank you :)
I am going to work more and post some of them .

Adilx05 - September 15, 2019, 1:49 pm

Wow. Looks cool mate ?

Crimin4L - September 15, 2019, 9:05 pm

Nice my man! Looks fantastic. Just one thing I would change: Maybe make the windshield have some blue in it, not a give fan of the straight gray. Unless that's the look you were going for than its all you, Everyone has their own preference :)

This is sorta what I was talking about, of course you could experiment with it a little to see what you would like.

Looks very polished. The amount of grey colors used is impressive. Good work!

Looks Very Nice.What is the rights on this, can i make a 3D model of this? i like the concept ?

DrDoof - September 20, 2019, 1:56 pm

Background is really annoying but the artwork is really impressive dude I wish I had the patience to get something like that done. What drawing tablet and application are you using?

majci - September 21, 2019, 9:53 am

With different background this drawing would be amazing.

Rsynced - September 21, 2019, 7:17 pm

It looks like the craft has wear on it, cool effect. Like the others said, the background kinda kills the main model.

Please, do a 3D model of it!

I am still working on my own 3D model of this :D

Thank you :)

I was using PS:CS6 and a basic and boring mouse.

Now I am using a Wacom One 2 M :)

Next time I'll think twice about the background. :)

Thank you :)

If you can PM me it with a white background that would help for me to see the fine details and i will work with this in my spare time. be fun project to work on.

eggssalad - September 27, 2019, 5:10 am

that looks sick! keep it up

RedJohn77 - October 6, 2019, 7:08 am

nice. but the bright orange background burn my eyes

Wiberg - October 7, 2019, 1:36 pm

Looks cool but would be fun to see more stuff in the background then just the red :3
