Account hacked or this guy is retarded. Fake bot lol.

Zackii - September 13, 2019, 5:31 pm

This website seems to be very old "Our Fishing bot works on all PCs! Windows 7 and Windows 7, 32bit and 64bit!"

HyperPhobic - September 13, 2019, 8:29 pm

Possibly a RAT/exploit kit targeting win7 systems?

windows 7 is probably the most vulnerable system currently ?

windows 7 is probably the most vulnerable system currently ?Hooold your horses.. We are not doing anything like that! ^^ I know you have to be careful for viruses around here, but this is no shady stuff (Except for the botting part.. ?)

It works on Win7 to Win10! The website had a mistake in the text! :) Sorry about that

Tyler Durden. - September 16, 2019, 1:42 am

No much info, but I like the idea

Good luck with sales!

riu41776 - September 16, 2019, 7:24 am

I would love you to create a bot that makes me coffee in the morning before we go out fishing.

Good luck with sales!The most of the info is on the website, under Help center & FAQ!

Thank you buddy! ?
