Thread: [\\$1400 USD to make investment](#)

CrypticNitrogen - September 12, 2019, 5:52 am

Hello there dear Hack Forums members, officials, admins, Staff, Donators,

I would like to know how i can put \$1400 worth of bitcoin into something that could generate me a little bit of side income or some sort of investments, anyone got ideas?

Thanks,

RUMRUN - September 12, 2019, 9:21 am

Look into setting up nyzo verifiers

Invest in other alt coins? Look at the six being added to Binance USA.. Which are the cheapest at the moment? One is at 25 cents.. One is at \$1.00

Also buy atleast one Bitcoin cash

Also buy whatever token Binance offers from USA site when it launch's.

Rsynced - September 12, 2019, 5:19 pm

Put it all in ripple and hold ;)

Mastor - September 13, 2019, 12:57 am

I would set aside some and buy physical gold. Especially with experts speculating a potential recession.. Gold won't ever lose it's value.

However I would still keep some of the money you have in Bitcoin. I personally expect Bitcoin prices to rise past \$15,000 within the next 2-3 years.

I highly encourage you to learn about the Foreign Exchange Market though. It would definitely help you better understand investments, and why price fluctuates the way it does.

l0lwtf - September 14, 2019, 3:20 pm

It's not investing, it is speculating.

Buy Paxos Gold token..

Deposit it into Nexo to get up to 8% return a year..

On gold!

I have replied to you (or attempted to) a number of times but still have no idea if the messages went through or not. All I know is that I do not have the required post count to allow me to PM users according to the error message that is displayed half the time when I try to finalize and send the PM's in question.

Please PM me on Telegram @ [Telegram: Contact @CptCrypto](#)

Trade smartly to get more cash , I would recommend trading bots which really works but need AI inbuilt in limiting the buy in's
