Thread: [Are you allowed to post Discord in sales threads?](#)

GramHQ - September 13, 2019, 10:44 am

I remember a while ago, you weren't allowed to post discord in sales thread. Although now i'm noticed most people doing it.

Can I add my discord to my sales thread?

I'm wondering this too, I see a lot of members doing it.

You can post Discord username, not Discord channels
