Can you provide screenshots of this in action?

Yes I understand that however when I made this thread my account was new which meant I couldn't upload any pictures.

Bought this chat bot a few days ago. It does exactly what it says it does. I used it to raid multiple streamers and blow up chats with my own accounts. I Had no issues however if support is needed

the seller is very patient and friendly.

I accept Paypal F&F only, I can send videos of the bot in action on discord and it doesn't come with any accounts.
