Just letting you know;

I did not obfuscate it (with the risk of people copying it) so people can easily see what is happening.

No requests are made if you did not ask it to do so.

Thank you.

This is the coolest "addon" I've ever tried.

Great work lynx. I'm proud of you.

Just added this, used the /support command to help you out a little.
Thanks, helps a lot.

Sadly don't have time at the moment. You can still implement some of these features if you want.
