Thread: [DAY 4 | CPA With OGAds | My Experience](#)

SikkePulsa - September 14, 2019, 6:49 pm

My 4th Day Doing CPA

This post is meant to serve as a source of information: from newbie to newbie. If any elites/intermediates read this, I would greatly appreciate your opinion on this.

I recently started doing CPA with OGAds. It took me a few days to get everything figured out and prepared: finding a niche, making and hosting my landing page, implementing the OGAds content locker, and planning a way to draw traffic. But with no headache, it was done and ready for Day 1 of the niche push.

Day 1 was iffy. Decent conversion rate, but not so great with the payouts. I then worked on optimizing the offers to disable the very low paying ones (anything lower than \$0.20). Now I'm not sure if that was a 10/10 move on my part, but that's what I went with, and it seems to have increased my payouts.

Letting my automated promotion method work close to 24/7 for the rest of the 3 days, these are the numbers that I have came up with so far.

Note to self: It's starting to look like the day of the week has a big impact on the amount of leads I get.

My Conclusion

CPA seems very doable and quite noob friendly, honestly. It feels like a passive grinding-style video game, where you have the possibility to earn more as you grow your skills/experience and expand the number of income sources (traffic/lead sources). I am so far satisfied with OGAds. Bobby from OGAds has been very helpful with getting me set in the right direction, so if you see this, thank you Bobby.

I am getting ready to upscale this project, expecting to earn 2-3 times as much from this niche. SO excited to make this happen.

To the newbies here - If I can do it, you can as well. Stay motivated. There is definitely money to be made here.

To the elites here - What do you think of my stats? Would you say my stats are average, or below average? Any friendly tips/suggestions?

Cheers!

What are you using? IG/YT? I made a few thousand from Ogads using YT and the 'hack' niche

Yea YT and a second custom promotion method that I would prefer to keep secret. At least for now haha. The niche is pretty new and big, so that's the main reason it works.

You say "made". Have you stopped using OGAds or doing cpa in general?

Uiqueblhats - September 15, 2019, 5:50 am

Try CPABUILD.

My earnings went 3x on their network when I shifted to them from OGAds.

Ivex - September 15, 2019, 8:21 am

Ey, your new niche doesn't happen to end with a 20 does it?

Also, gg. If you want motivation check out my journey thread for CPA:

Yea. Direct viewers to a website that requires a survey completion to unlock content.

Amazing results, you use bh niches like hacks, generators etc? Or its wh niche?

Good numbers for getting started, if you're planning to get traffic from Instagram you can pm with any questions, used to be one of the top earners on ogads from insta alone.

Can I ask why you stopped? I'm assuming you have a lot of experience and knowledge now. Why not put it to use again?

I been lurking around the money making threads and I'm a total beginner on CPA/PPD. This thread has got me very interested in learning how this works. Even if I have to put my time and effort into this. Would you mind PMing me, setting me into the right direction or even mentoring me in some sense.

Progress Update 10/2/19

Progress Update 10/2/19

September has come to an end. I thought I would give an update on how things went during the whole month of starting CPA.

I am pretty happy with my results. There is always room for improvement, but going from \$0 to \$230+ in less than a month with very minimal work, I would have to say that's a huge start coming from someone who just got into CPA.

Those of you who are interested or hesitant or need help, shoot me a pm. I will be happy to help you get things running!

Cheers!

Anychance you could send me a pm aswell if you have a moment?

I've learnt a lot already & am still learning, but I feel like I'm struggling to make the connection between setting everything up & actually getting traffic to my offer's, if that makes sense.

Thank's for sharing your journey, seeing other's success helps to stay motivated & keep pushing forward. :)

I'm curious if you'd be willing to offer some help, it would be greatly appreciated! (If not, I completely understand and wish you well in the future)

I got denied by OGAds. For what reason? I'm never applying there ever again.

When you get some free time stick a guide together and list it for a reasonable price. I'd definitely be interested in what you have to say and would be happy to pay for it.

They are solid, but you should really consider doing SEO. It's passive income that way and you potentially could sell your site later for a high margin

Do you have to report your earnings to the IRS?

OGAds and team are by far the most supportive affiliate network I've come across.

We began using OGAds in 2017 to promote single offers through content lockers; use being for more active consumers to get more personalised services.

Their support, 10/10. Their payouts on time and then offer quality is sifted through day by day.

Look into their daughter network AdGem for some great offers too.
