How do you redeem these codes?

Does this work in Canada?

You can go [Here](#) to redeem them.

I am not sure if it works in canada but you can always use a US ip/proxy/vpn to do so.

Confused why this is benefiting to someone

No, it is only for US. Although you could resell your prize in theory. But at that point you are just gambling.

If I were American I would likely purchase this, good luck with sales OP

You can redeem these for promos that coke does for example they do promos for gift cards and AMc movie tickets and other free things for coke codes. you can keep and use or sell for profit.

But these are guaranteed prizes, in theory I could use all 2k and still not win anything

well if you have enough accounts for the \$cvs gift cards (they need to be accounts made before this promo started) then yes you will for sure get the gc's also the AMC tickets are instant delivered once you redeem the 35 codes. They do promos for giveaways all the time even though most of the ones you will find are sweepstakes those are not the only things they do here.

Hmmm, this would really only be lucrative during huge movie releases.

Imma look more into this and most likely contact you.
