Thread: [Streamable myBB Tags](#)

Crimin4L - September 18, 2019, 9:21 pm

Hey guys, I went to post my video from <https://streamable.com> and noticed there was no myBB code for it. Could we maybe have this implemented cause I love streamable, its very easy and quick to upload videos :P Definitely way better than youtube for quick video uploads.

I agree. So many sports clips come out of it and it's more preferred than youtube for posting stuff like that.

Actually I like doing non-Google related services like Streamable. I'll look into it.

Code [streamable][https://streamable.com/r73tg\[/streamable\]](https://streamable.com/r73tg[/streamable])

How is that?
