Thread: [\[PRIVATE METHOD\] Make Extreme Money With Shopify \(No Dropshipping\)](#)

GubiSeKmico - September 21, 2019, 7:53 am

UPDATED: No investment version added (requires shopify & dropshipping experience though)

50/50 copies - after that, the price triples for obvious reasons.
As of 25/09 the price is now 90\$.

What's gucci? I have posted this on n.to and c.to and wanted to share it here too to avoid people leaking this/selling my work. 40 copies have been sold so far.

No, marketing the products in your Shopify store isn't the only way to make money with e-commerce. You just need to use your brain and understand how the system works - this comes with experience.

I am selling a short guide (literally 8 steps, don't expect a 20 page ebook) on how to approach Shopify in an alternative way. I guarantee you that you've never heard about this & that you won't find this anywhere else, this is my private method. It will blow your mind on how genius it is compared to it's simplicity.

It requires time (1-7 days, much shorter if you do something that I can't mention here, mentioned in the guide of course) & money investment (0-150\$), but the pay-off is guaranteed & off the charts, worth it in all possible ways. If you don't have time & money to invest, get lost from here.

It involves Shopify & the Exchange Marketplace. I can't tell anything more as it would compromise this.

Price: \$5 \$8 \$10 \$15 \$20 \$25 \$30 \$90 BTC/LTC/PayPal (as 50/50 copies have been sold, I've tripled the price for obvious reasons)

PROOF (~25\$ invested here):

(~100\$ invested here)

Feedback etc:

Apparently, there's a rule here on HF that doesn't allow vouches from other forums. Okay. This is feedback then ;)

Does this include making/copying stores and selling them? Flipping them? Service?

Also I looked at the reviews and its proof of earnings were selling stores? And BTW avoiding the contract system is not allowed so just a warning OP (Remove autobuy). Make sure to use the contract system!

This is interesting though. Let me know if you are providing a vouch copy. I could execute this method and put a honest review.

Already provided one (did 1 for each forum).

So at what platform are we selling the stores?
Feel free to PM if you don't want this out to public.

Newer feedback. 5 copies left.

SIM-888979 - September 24, 2019, 7:11 am

So seeing that this method involves selling stores, does it involve producing fake orders to buff up the stats of the store?

elterco - September 24, 2019, 10:36 am

are you offering vouch copies to trusted members?
I'll wait for some leet/uber to post for feedback

rogerand19 - September 25, 2019, 2:37 am

evelution - September 25, 2019, 3:38 am

Waiting for the review..

I've flipped stores on shopify. But your proof looks really good. Curious if you have some secret sauce or just straight up training on how to flip.. If the former, Def interested..

GLWS

As I have now sold 50/50 copies, I have tripled the price to 90\$, mentioned this on other forums too.
Replies before this who are still interested to buy it will have the ability to get it for 30\$.
Replies below this or anyone who contacts me after this - the price is 90\$ (for obvious reasons).

Updated the method with a non-investment version (requires shopify experience though)

rogerand19 - September 27, 2019, 11:19 am

what is the investment that we have to make? \$150?

SIM-4086413 - September 27, 2019, 11:41 am

You can't use vouchers from another forum, it will most likely get you banned once reported.

A vouch has to have a contract linked to this specific thread even when it's a picture of the vouch.

Actually 0\$ if you have shopify experience.

If you don't, then 29-150\$.

I didn't know that. And tbh, that's retarded, you can easily search this up on those forums and check it out for yourself to see if they're real or not. Now, if you're too lazy to do that, that's a personal issue.

Thanks for mentioning it.

Yeah but it's not a personal issue, it's an official Hackforums rule and people have been banned for breaking it.

You are warned.

I now know. Just saying it's a retarded rule. Will update
