Thread: [insert doesn't work for hack menu](#)

Peter Linnik - September 22, 2019, 4:45 am

I am using a cracked version of onetap and when i inject the menu appears but then pressing insert does nothing the same thing happens with all the other hacks i've tried

Black Devil - September 22, 2019, 8:25 am

try changing your keyboard layout, or buy the cheat and get proper support.

Imagine being broke and not affording the real thing

Real ot > crack

Real ot > crack

Think that summarizes about 90% of the cheaters in csgo
